51 Plugs offer the perfect compromise that balances

- economical cost per plant
- reasonable number of plants for the home gardener or commercial grower
- faster finish time for retailers
- Grower friendly counts
- will bloom soon after transplanting
- Well rooted plug that will start rapidly
- Size that can be shipped long distances
- shipped with soil to reduce transplant shock
- smaller tray is more economical to ship and can ship multiple trays per box
- lower shipping costs than larger sized plugs or starter plants.
